

MISSION

Developing academically proficient students who are morally, spiritually, physically and socially empowered.

PHILOSOPHY

Our Lady of Lourdes School values a close relationship with God by creating an awareness of God in everything our students do. By embracing Christian principles, students acquire the ability to adjust and achieve in ever-changing family, social and political structures.

Faith formation is the cornerstone of Our Lady of Lourdes School. Students begin the day with prayer, participate in daily religion classes and attend weekly Mass. An emphasis on individual prayer, personal respect, teamwork, honesty, loyalty, and integrity are integral parts of every academic and social interaction.

Academic excellence is enhanced with a strong emphasis on a basic core curriculum that teaches students how to think and learn independently. Students achieve their fullest potential through a combination of instruction methods intended to meet required basic skills while providing opportunities to challenge the capabilities of each student.

Students are immersed in an environment where respect and acceptance of each individual's abilities and successes are celebrated allowing our students to grow morally, spiritually, physically, socially and academically.
