Developing academically proficient students who are morally, spiritually, physically and socially empowered.

2009

Please consider the effect a Catholic school education could have for your child. Then, review the enclosed materials or visit our school's website to find out more about our Parish School.

As a past principal in an excellent public school, I know first-hand that God, the Bible and Christian teachings are not allowed by law to be part of the everyday experience for public school children. As principal at Our Lady of Lourdes School this past year, I can certainly attest to the positive difference integrating God into the curriculum makes for young children. We are reminded about God by beginning each day with prayer and scripture. Then, throughout the day, spirituality and moral values are interwoven into daily lessons, social interactions and curriculum enhancement activities.

Our Lady of Lourdes School students thrive in small classes with more teacher/student interaction, allowing conscious attention to academic and social development. Furthermore, students in our school receive more than 125 hours of religious education each year. Please explore our other fine academic, spiritual and social education programs by visiting our school website and consider visiting us in person by scheduling a school tour.

In tough economic times, parents should consider the added value of Catholic education. There is no greater investment than your child's future. One parent of three, whose children attended our school from Pre-K through sixth grade, recently stated directly that, "We did without a new house, a new car or expensive vacations; but our children's spiritual and academic development at OLL was worth every cent!" In fact, our tuition rate is only \$2.84 per hour and less than what you would probably pay for day care! If the price of tuition is the only thing keeping you from sending your child here, let's talk! Please contact me directly to discuss various sources of support that may be available to you as parishioners.

As Catholic educators, the Trinity tradition tells us that God loved us into being, Jesus came to witness the depth of that love and the Holy Spirit empowers us to share that love with the world. Our Catholic schools follow this action of the Trinity. Our Lady of Lourdes students, faculty and staff witness the depth of that love each and every day.

Yours in Christ,

Earl Routh
Principal
